

Good

Only choice leaves grown at high altitudes go into the blending of Blue Ribbon Tea. That is why its flavour is so uniformly excellent. Insist upon getting it from your grocer—refuse substitutes of inferior quality.

CHAPTER XIV.—Continued.

"To hell mit him!" shouted Hand. "He don't dare do it. Rush him."

But the mob did not obey their leader's rash command. Donald's pale face and burning black eyes were sufficient evidence that he made no idle threat. Donald saw the big hand of his foreman stealing to the butt of the heavy Colt that hung at his side. "Keep cool, Jack," he begged; "don't start anything."

For days Gillis had been without sleep. He turned bloodshot eyes on Donald. "By G—! I would like to take a crack at Hand," he said in a voice thick with rage.

The hostile crowd did not advance; neither did they leave. Scattered in groups, they lay or sat on the hillside to shout occasionally words of derision at Donald's faithful crew.

Donald's nerves were on edge. At any moment there might be a pitched battle with loss of lives. He studied the faces of the strikers to see how many were from his crew, and was surprised to recognize fully 40 of his men. He saw "Blackie" in the rear of the crowd of strikers. When his eyes met Donald's he turned away shamefacedly. All the men from his camp refused to meet his gaze squarely. "Those men are ready to come back right now," he said to Gillis. "Hand has bullied them into this. Don't you think so?"

"I don't know," answered Gillis. "I never thought Blackie would go back on me. I'll wring his d—d neck when I catch him in town!" he added bitterly.

Donald heard a slight movement behind him, and turned to see Connie standing with her rifle in the crook of her arm.

"Good heavens! Connie, you shouldn't be here!" he exclaimed.

Connie's face bore traces of weariness and sleeplessness. For three nights she had stolen softly away from her cabin on the hillside to lie hidden outside that of Donald. By night she had kept up a weary vigil, ever on the alert; in the forenoon she had lain behind a stump on the hill with eyes on Donald's tall figure whenever he came in sight, her rifle ready for instant action. Hand did not know that death had nearly claimed him when he stepped forward to urge his men to charge. At that crucial moment Connie's rifle was aimed at his heart.

"Get away from here at once, Connie!" said Donald, firmly, but kindly. Connie lowered her eyes to her moccasined foot, that was weaving patterns in the dry soil, and shook her small head obstinately.

"Why do you wish to stay?" he asked.

"She patted the stock of her rifle."

"I—I want to help you."

Donald looked down at the weary little figure. He stepped down from the stump, keeping a wary eye on the belligerent strikers, and came to her side. "Connie," he said softly, "you are a dear, brave little girl, but you must get away from this place as there may be serious trouble. Please, Connie," he entreated, reaching out a hand to stroke her shining hair.

Connie's face paled quickly, and she shrank from the caress. Her slender body trembled at his touch, and his display of tenderness brought a sudden rush of tears to her eyes. But she made no move to leave the scene.

Finding that he could not shake Connie's determination to stay, Donald returned to the vantage point of the stump. "Jack," he said, turning to his big foreman, "I am going to make one last appeal to these men. If I am any judge of human nature about half of them, if they can save their faces, will welcome the chance to go back to work. They are being dominated by Hand."

Gillis shrugged his shoulders. "Do what you think best," he said. Donald passed the dynamite to Gillis and stepped forward with his arms extended, palms upward. The crowd moved uneasily. Hand came slowly to his feet, his small eyes narrowed with suspicion.

"What's up?" he growled.

"Men," Donald began in a high clear voice, "I would like to convince you that you will gain nothing by your present tactics. Bloodshed will surely ensue. I have orders to refuse your exorbitant demands. Personally, I have no choice in the matter; there is no other course for me to pursue. In spite of your interference, we will continue working with the few men who have remained loyal. I will ask for police protection only as a last resort. I appeal particularly to the men who worked for me here at this camp. Is there one of you who can truthfully say that you were not accorded fair treatment? Is there one of you who will not admit that the general equipment for your comfort is unequalled in any camp in British Columbia? You are making a mistake, men," he went on in a pleading tone, "a mistake you will be sorry for later, for you will be blacklisted in every camp in the country. Go back to work, and I promise you there will be no mark against you. That's all."

Donald walked back to Connie's

side. The men had not interrupted him once.

Hand turned to the wavering crowd. "To hell mit him and all capitalists!" he snarled. He turned to shake a huge fist at Donald. "You threaten us, do you? You—d—!" The epithet that came from his coarse lips was one that would cause any decent man to see red.

Donald stiffened. His face turned livid. "You dirty cur!" he flamed. "Don't you know that there is a lady present? You apologize to this little girl or I will whip you within an inch of your life!" His voice trembled with passion.

"Lady," scoffed Hand, "vat you call a lady? She moost be nice lady, runnin' in de woods wit' you ev'ry Sunday."

A murderous look shot from Donald's dark eyes. A terrible rage possessed him, a rage that made his blood feel hot in his veins and gave him the unnatural strength of a madman. A dull red flamed in Connie's tanned cheeks. She sat down and covered her hot face with her hands.

Andy now came running from the

cook-house, dressed in white cap and apron, his rifle trailing at his side. "What's goin' on, Donnie?" he questioned.

Donald did not answer. Gillis spoke to Andy in an undertone.

"My God, Donnie, 'e's twice your size! Don't fight 'im!" implored Andy.

"I'll kill him!" rasped Donald.

Gillis seized his arm. "Let me fix the d— skunk; he's nearer my size."

"No, this is my affair!" shaking himself from the grasp.

The sound of a paddle came from below, and the trapper sprang from his dugout and came swiftly up the hill. As Andy briefly explained the situation the old man's grey eyes narrowed to mere slits beneath the shaggy brows.

"Ah!" he breathed. "Me and 'Betsy,'" patting his six-shooter, "we likes to shoot up bohunks. We shoots them in the heel so's to save their clothes." His mouth was set in a grim smile, a smile that was belied by the steely look in his deep-set eyes. He seated himself on a log and placed his gun on his knees.

Donald had by this divested himself of coat and shirt and now stepped forward dressed in light cotton trousers, a sleeveless undershirt and moccasins. "Hand," he said in a steady voice, "this is between you and me. See to it that your men do not interfere; I will vouch for mine."

The big foreman was rubbing his big hands as though in pleased anticipation. "I suppose you know how we iss goin' to fight? Everything goes, you know." His grin was fiendish.

Donald knew what was meant. There were to be no rules of combat; no time duration; no referee; no rounds, and woe to the man who should go down. It was to be a battle as of primeval man. It might result in terrible injury and mutilation. He sickened at the thought.

(To Be Continued.)

Sore Corns Drop Off If You USE "Putnam's"

When you notice any sign of callous on the feet or toes—that's the time to paint on a few drops of PUTNAM'S CORN EXTRACTOR. Do this, and you prevent corns. No matter if the corn is hard or soft. Let it be on top or between the toes. Putnam's will remove it without pain. Insist on PUTNAM'S CORN EXTRACTOR. It does the work—and roots out the corn, quickly and without pain.

Device Proves Sound

Experiments Show New Invention Ensures Safety For Submarines

Successful tests of a safety door for submarines and a gas mask-like lung were conducted by the navy department from the submarine S-4 resting on the bottom of the sea.

Chief Torpedo Man Edward Kolinski was the subject of the experiment. From hundreds of feet down he crawled through the safety door in the submarine and, breathing freely through the "lung" or mask, he shot up quickly to the surface.

The navy now has demonstrated that with these two devices there need be no fear of a repetition of the loss of life which resulted when the S-4 was rammed and sunk by the steamer Paulson and the entire crew of 40 perished.

A steadily increasing group of words making its way into the dictionary is that of dialectal, provincial and local words and expressions.

Inquiring Child: "Did you and daddy descend from the gorillas, nummy?"

Mother: "I didn't, darling."

The Carnival Of Noise

Much of It Is Unnecessary and Could Be Eliminated

The present high peak of street noises has been reached so gradually that many persons have not fully appreciated what they are allowing others to inflict upon them and have not stopped to consider whether, in fact, the various components that make up the existing pandemonium are really necessary and unavoidable. Each new addition has been accepted with astonishing complacency. The unsilenced motorcycle, the klaxon, the heavy lorry, the airplane, the steam tractor and the pneumatic drill, have been tolerated in turn. Each of these noisy inventions has been turned loose without let or hindrance and people have ceased to marvel at them or to wonder what diabolical invention engineering science will thrust upon them next.

To Prevent "Flu"

INFLUENZA GERMS FIRST ATTACK THE NOSE AND THROAT

Dangerous germs which lodge in the breathing give you Grippe, Flu, or Influenza. You can destroy these germs if you cleanse your nose, mouth and throat with Catarrhoxone. When the healing vapor of Catarrhoxone is inhaled it releases powerful antiseptics which destroy every vestige of germ life.

Protect yourself against "Flu" by using Catarrhoxone; it stops a cold in a few moments, cleans the nostrils, takes soreness out of the throat. All the irritating matter in the nose and throat that smells so bad, that gives you a headache and makes you cough—Catarrhoxone clears it all away.

For Influenza, Catarrh, Nose Colds, Irritable Throat, you will get prompt and effective action from Catarrhoxone. Carry the Inhaler in your purse or pocket, etc., use it frequently. Complete outfit, \$1.00. Smaller size 50c. at all dealers.

Recipes For This Week

(By Betty Barclay)

GRAPE MOULD

5 tablespoons quick-cooking tapioca.
1½ teaspoon salt.
1 pint hot grape juice.
½ cup sugar.
1 cup shredded pineapple.
1 cup quartered marshmallows (if desired).
2 egg whites.
Lady fingers or strips of sponge cake.

Cook tapioca and salt in the hot grape juice in a double boiler 15 minutes, stirring frequently. Stir in sugar. Remove from fire and add pineapple. When partially cooked, stir in the marshmallows (if desired), and fold in the stiffly beaten egg whites. Arrange split lady fingers around sides of a glass bowl or around individual sherbet glasses. Pour in mixture and chill. Serve with whipped cream. Lady fingers or sponge cake may be omitted.

MACARONI WITH OYSTERS OR FISH

6 ounces macaroni.
½ teaspoonful salt.
1-6 teaspoonful pepper.
2 tablespoons butter or a substitute.
1 pint oysters.

Cook the macaroni until tender in boiling salted water, drain, then season with the salt, pepper and butter. Oil a baking dish and put a layer of the macaroni into it, then a layer of oysters which have been carefully picked over, more macaroni, more oysters, and so on until the dish is full. Pour the liquor from the oysters over the top—there should be a cupful of this liquor—if there is not enough make up the deficiency with milk. Bake twenty minutes in a moderate oven—350 degrees F.—and serve with tomato catsup.

Cold left-over fish may be substituted for the oysters if desired, using left-over sauce or milk for the moistening in place of the oyster liquor.

A Clever Idea

The Durham Chronicle tells of a young man who visited a store in that town, purchased three dozen eggs on credit, took them to another store and sold them and used the money to buy gas for his car. This is probably the first instance of a thirty-six hen-power automobile.

Movie Actress—"How did you ever get a reference saying you were a perfect lady's maid?"

Maid—"I worked for a perfect lady, once."

No. 10 Downing Street, the English prime minister official residence, was originally designed by Sir Christopher Wren.

Prospects Bright In Alberta

Outstanding Year Is Looked For Says Lieutenant-Governor

Alberta's story for 1923, in common with that of all Western Canada, is one which tells of unprecedented development and is eloquent of hope for the future, His Honor, W. G. Egbert, Lieutenant-Governor of Alberta declared at Winnipeg in a recent interview.

More than 22,000 persons had moved into the Peace River Valley during the year, he declared, almost doubling the population.

While Alberta's marketing of coal was still a very real problem, considerable headway had been made in this industry, and Dr. Egbert looked upon the extension of the test period for shipment to Ontario from three months a year to six months as a favorable indication.

His honor forecast considerable development of water power in the near future. He referred to the great opportunities for electrical development of the Spray Lakes. Power service was being extended from Edmonton, he said, to the rural districts to the south especially.

How He Understood It

One day, in the third grade reading class, the teacher was telling a story of a dog and a fox. When she came near the end of the story she said, "And the cunning fox jumped up on the stone wall and ran along it, and the dog lost his scent."

When she finished the story she called on the little Italian boy in the class to repeat the story.

Joe stared all right, but as he came to the end of the story he said, "An' de cunning fox, he jump up on de stone wall an' run along it, an' de dog, he lose his penny!"

Dairymen—Yes, this is the very latest type milking machine.

City Lady—But do you think any of these machines make as good milk as cows do?

If it could be made to rotate fast enough, a thousand horsepower might be transmitted by means of an ordinary lead pencil.

New Weapons Against War

Radio and Atlantic Phone Service Would Greatly Aid Statesmen

Science has been used largely to develop the weapons of war, such as the airplane and the submarine. But there are modern scientific resources which may become effective parts of our peace machinery. In 1914 the great difficulty was that the men responsible for national policies were not together; they could not talk to one another; negotiations were impeded by elaborate methods of cabling back and forth. We now have the trans-oceanic telephone. That, no doubt, will be a great addition to our peace machinery. The radio, or even the airplane may serve to overcome distance as an obstacle to conference among statesmen.

FOR MOTHERS OF YOUNG CHILDREN

Mothers are quick to praise anything which brings health and comfort to their little ones—any medicine that will make the baby well and keep him well will always receive hearty recommendation from the mother. That is why Baby's Own Tablets are so popular. Thousands of mothers throughout the country, not only use them for their own little ones but are always delighted to be able to recommend them to other mothers. Thousands of mothers have proved Baby's Own Tablets to be without an equal in relieving their little ones of any of the many minor ailments which arise out of a derangement of the stomach and bowels. Baby's Own Tablets are the ideal laxative—easy to take but thorough in action. They banish constipation and indigestion; break up colds and simple fevers; expel worms and make the teething period easy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

"His wife used to be a peach."

"She still is. She's a peach O' Reno."

Use Minard's Liniment for the Flu.

Trees grow out of doors and doors are made out of trees.

Little Helps For This Week

"Give us this day our daily bread." Matthew vi. 11.

Master, help! From hour to hour, Lord, I need Thy saving power, Not to soothe tomorrow's woes, Not to bless tonight's repose. Now I hunger to be fed; Give today Thy daily bread.

Every moment hold my hand; Without Thee I cannot stand. Show my foot the place to tread; Step by step I must be led. Go before me all the way; Give me daily bread today!

—Rose Terry Cooke.

What is this bread, O my God? It is not merely the support which Thy providence supplies for the necessities of life; it is also the nourishment of truth which Thou givest each day to the soul. It is the bread of eternal life, giving it vigor, and making it grow in faith. Thou dost renew it every day. Thou givest within and without precisely what the soul needs for its advancement in a life of faith and renunciation. For whatever happens to me each day is my daily bread, provided I do not refuse to take it from Thy hand and feed upon it.

Help Would Be Welcome

Prosperity Enjoyed In Canada Should Make People Generous

The British government, staggering under a burden of taxation never before borne by any other nation in modern history, has done all that was humanly possible in the way of providing state safeguards against the conditions which now prevail. Yet stark poverty stalks through the land, and semi-starvation and exposure have combined to make an attack on a people which a disease epidemic would change into a tragedy that would stir the entire English-speaking world. Circumstances beyond the control of the stricken people are responsible for their adversity; circumstances largely beyond our own control have made Canadians so prosperous as to be able to extend a helping hand—at once.

—Toronto Globe.

Reduce the Acid

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour.

Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Go prove this for your own sake. It may save a great many disagreeable hours.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

WINDOLITE The Improved Glass Substitute

MADE IN ENGLAND

COMES WITH A MESSAGE OF HEALTH

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs. while a square yard of glass of ordinary thickness, weighs about 135 to 140 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

MINUTES OF BLACKFOOT M.D. MEETING

Second Meeting 1929

Minutes of the Council of the M.D.
of Blackfoot, No. 218, held in the
Municipal Office, Gleichen, Tuesday,
February 12th.

There were present: Reeve Thor-
sen, Deputy Reeve Duncan McBean
and Councillors Maynard, Daw, Dun-
stan and David McBean.

Coun. Maynard: That the minutes
of the previous meeting be
adopted as read.—Carried.

Coun. Duncan McBean: That the
account rendered by the Gleichen
Hospital for \$109.90 covering hospital
services to an indigent resident
of the Municipality be paid.—Carried.

Quotations for the supplying of
five car loads of lumber were
placed before the Council.

Coun. Dunstan: That we order one
car of 3x10x16 plank and four cars of
8x6 timbers in 12, 16, 18 and 20 feet
lengths, No. 1, Coast Douglas fir in
the rough from the Crown Lumber
Company Limited, Gleichen, at their
quoted price of \$36.50 per 1000 ft.
c.b., Gleichen, Alberta, with sales
tax paid, and that we take delivery
at once.

The minutes of the meeting of the
representatives of the Municipal Dis-
tricts Nos. 218, 219, 220, 221, 248, 249
and 250 held in the Hood & Irvine
Hall, Calgary, Jan. 18th, 1929, was
read.

Coun. Mynard: That the minutes
of the meeting of the municipal dis-
tricts as read be accepted and filed.
Carried.

Coun. David McBean: That the ac-
count rendered by the city of Cal-
gary, hospital's department for the
balance of \$13.75 hospital account
due by a resident be paid.—Carried.

Coun. Daw: That the letter from
the C.P.R. Department of Natural Re-
sources, Strathmore, re \$24.00 ac-
count for grading approach to irriga-
tion culvert be filed.—Carried.

Coun. Maynard: That the ac-
counts as o.k'd by the Finance Com-
mittee be passed and ordered paid.—
Carried.

A letter, with plan attached, from
Calgary Power Company, requesting
approval for the said company to erect
a power transmission line in Town-
ship 24, Range 21, on and across cer-
tain road allowances subject to the ap-
proval of the Department of Public
Works, Edmonton, was read.

Coun. Daw: That this municipal
district approve the granting by the
Department of Public Works, Edmon-
ton, of the proposed right of way for
a power transmission line to the Cal-
gary Power Company as requested on
condition, however, that any poles
located on the road allowances in the
district be placed not more than two
feet from the property line.—Carried.

Coun. Dunstan: That two polls be
established in Division No. 2, of the
Municipality at the forthcoming elec-
tion and that the said Division No. 2
be divided north of Sections 7, 8, 9, 10,
11, and 12, Township 24, Range 21, for
this purpose.

~ Poll No. 1 shall be the southerly por-
tion of the said division and shall be
opened at Ploegstreet School with
P. Rogers as Deputy Returning
Officer and Poll No. 2 shall be the
northerly portion of the said division
and shall be opened at Chancellor
School with H. Boyden as Deputy Re-
turning Officer.—Carried.

Coun. David McBean: That the
secretary-treasurer with the assist-
ance of the council furnish to the
Canadian North-West Historical So-
ciety the name and address of resi-
dents of the municipality living in the
West prior to 1890.—Carried.

Coun. David McBean: That Muni-
cipal Engineer Mitchell be advised
that the Council of the M.D. of Black-
foot, No. 218 are in accord with the
proposal to approach the government
requesting them to allow road surveys
without digging pits.—Carried.

Coun. David McBean: That Coun-
cillor Maynard take up the question of
the chemical eradication of soy thistle
at the coming Ratepayers Meeting on
the 16th.—Carried.

THRESHERS REQUIRED TO FURNISH RETURNS

The minister of Agriculture desires
to draw the attention of threshermen
throughout the province to the con-

ditions under which threshing permits
are issued by the department. Each
registered machine owner is sent a
license for the season, accompanied by
a blank form on which he is required
to make a return to the department
of agriculture showing the number of
acres and the number of bushels
threshed during the season. Up to
the present time a considerable num-
ber of threshermen have not complied
with this regulation and it is pointed
out that complete returns of this kind
provide the only basis on which a de-
finite statement can be issued show-
ing the total and average yield of the
various grains produced each year in
the province. In the absence of this
definite information the department is
in the position of having to accept
estimated figures compiled in other
ways. For this reason it has been
found necessary to accept the esti-
mated figures for the present year's
Dominion Bureau of Statistics. An
appeal therefore is made to thresh-
men and farmers throughout the pro-
vince to cooperate with the Depart-
ment in making available the fullest
possible information which will be of
assistance in this connection.

ECHOES OF GLEICHEN TWENTY YEARS AGO

Taken from the Call in 1909

Oats reached 32 cents in Gleichen
last Friday.

The roof is almost completed on the
new school house.

J. M. Telford drove across country
from High River last Thursday.

Mrs. M. Ravey of Crowfoot spent
last Sunday visiting Mrs. Henroth at
Gleichen.

J. M. Telford yesterday started the
erection of another business block
on Fifth avenue.

About twenty Gleichen sports took
in the Lauder and Cove fight at Cal-
gary on Monday night.

Ten carloads of Cory Bros contract-
ing outfits arrived at the station last
week and are now being unloaded.

An effort will be made shortly to
form a branch of the United Farmers
of Alberta Association in Gleichen.

A. J. Campbell returned Sunday
from a trip to his former home in
Chesley Ont., after an absence of six
weeks.

Chas Palmer's dog created a good
deal of excitement at Crowfoot the
other day by taking a bite out of the
business end of a porcupine.

For the benefit of our farmers The
Call made inquiries at Calgary last
week and learned that hogs were
bringing 6 1/4 cents per pound.

Baptized at Cluny by the Rev. T.
W. Castle, Amy Elizabeth, daughter
of William Henry and Eliza J. Pal-
mer, on Sunday, 31st January.

Wm. Dankworth and his brother
arrived from Marysville, Idaho, on
Saturday to prepare for farming on
their farm near Crowfoot creek early
in the spring.

The Farm Crops Trophy, won by
Mr. Buckley, will be on view at The
Call office when it arrives in Gleichen.
It is a beauty and you should come
in and have a look at it. Mr. Buck-
ley will not leave the \$50 that goes
with his prize with us.

Mr. Thomas Devine proved to be
the most popular young man in Glei-
chen in the Peoples' Cafe contest and
is now entitled to a meal ticket good
for one week. The Call congratu-
lates Mr. Devine on his good fortune
and popularity and we are told it was
the young ladies who are responsible
for placing him in this enviable position.

Miss Larkin was the pleasant host-
ess to a skating party on Monday
evening when she invited some twenty
of her young friends to spend the even-
ing skating on the big slough on the
reserve. A lumber wagon served to
drive the skaters to their skating ren-
dezvous and back where a merry time
was enjoyed.

At the Provincial Seed Grain Fair
held at Calgary last week Gleichen
succeeded in capturing five prizes,
and here they are: Farm Crops
Trophy for Spring Wheat, 1st. John
C. Buckley. Spring Wheat, Red
Fife, 1st. John C. Buckley. Peas, 2nd.
Otto Kirstein. Six Rowed Barley,
3rd A. D. Shore. Flax, 3rd W. F.
Ferguson.

Here and There

(219)

Boys at Red Deer, Alberta, earned
Christmas pocket money by
trapping. They brought in nearly
400 weasel skins in less than a fort-
night and also coyotes, rabbit,
squirrel and cat skins.

Further experiments with super-
phosphate from the smelter at
Trail, B.C., will be conducted in
1929 by the Alberta Department of
Agriculture in conjunction with the
Dominion Experimental Farms and
C. P. R. experimental farms. An
abundant quantity of this fertilizer
will be available to meet demands.

Upwards of four millions of dol-
lars will be expended this season
in effecting alterations, improve-
ments, and extensions to the Pallis-
ter Hotel at Calgary, Alberta, and
the Empress Hotel at Victoria, Brit-
ish Columbia. E. W. Beatty, chair-
man and president of the Canadian
Pacific Railway has just announce-
d. Four additional floors will be
added to the former and an entirely
new wing will be extended from
the latter, bringing these two
famous hosteleries even more up to
date.

A Negro preacher walked into the
office of a Southern newspaper and
said: "Misto Edito', they is
forty-three of my congregation
which subscribe to 'yo' paper. Do
that entitle me to have a church
notice in 'yo' Saldary issue?" "Sit
down and write," said the editor.
"I thank you." And this is the
notice the minister wrote: "Mount
Memorial Baptist Church, the Rev.
John Walker, pastor. Preaching
morning and evening. In the pro-
mulgation of the gospel three books
are necessary: The Bible, the
hymn book, and the pocketbook.
Come to-morrow and bring all
three."

Twenty head of holstein cattle
from Alberta pure bred herds have
arrived at Vancouver over Cana-
dian Pacific Railway lines for ship-
ment to Japan. These cattle were col-
lected for a Japanese buyer by dep-
uty minister of agriculture Craig.
Quite a few such shipments have
passed through this port recently.
The purchase of the stock for Japan
was made through the Alberta gov-
ernment and the cattle were select-
ed from various herds in the pro-
vince. Several of the animals or
their immediate ancestors have re-
cords of 20,000 pounds of milk per
year and all of them are from high
producing dams.

A monster black bear weighing
over 400 pounds that stalked up-
right through the woods seeking
what or whom it might devour and
which had no forepaws, has just
been trapped in New Brunswick,
according to Dave Ogilvy, well-
known guide and outfitter. The
beast used to rifle all the garbage
dumps and refuse heaps in the
neighbourhood of Plaster Rock, on
the line of the C. P. R., and was
caught by means of a trap hidden
under dead leaves and some old
paint tins. Examination of the
body showed that its forefeet were
crippled, either by deformity at
birth or by an accident, and that
it must have walked about on its
hind feet. Only tracks of the rear
paws had been found, and consid-
erable mystery existed as to the
murderer. Seymour Traffon and
Jock Ogilvy caught the bear, whose
skin measured over seven feet in
length.

For the sixth successive year
Dean Sinclair Laird of Macdonald
College, Ste. Anne de Bellevue,
Quebec, will conduct an all ex-
pense tour across Canada and
back starting from Toronto on
July 22, and lasting for 21 days.
The party travels in a special train
with a baggage car filled up as a
sixty-foot dressing-room.

Equipped with a bow-rudder, a
new device that will aid in nav-
igating the harbours of Victoria
and Vancouver and the waters of
the British Columbia coast, the
Princess Norah has arrived on the
Pacific seaboard to join the fleet
of the B. C. Coastal services of the
Canadian Pacific Railway. She is
the eighteenth ship to be built for
this work and has just been con-
structed at the shipbuilding yards
on the Clyde in Scotland.

Thirty years ago Cuba was a hot-
bed of yellow fever, malaria and
other diseases. During the last fis-
cal year it had the lowest death rate
of any country in the world, only 12
per 1,000 of population. What a
triumph of modern medical science
and sanitation!

Zara Agha, who is 155 years old
has been married 11 times, recently
petitioned the Turkish government
for divorce from his wife who is 90,
so he could marry a girl 40.

Firemen in the English town of
got a new fire engine a year ago and
Lingfield are disappointed. They
the town hasn't had a fire since.

Copper rings are worn on the fin-
gers in Turkey to prevent erysipelas.
There are 137 trees in the United
States known to have medicinal
value.

Magnets seven feet long are used
on highway trucks in Dakota in an
effort to clear highways of metal that
might puncture tires.

A storage battery which weighs 39
tons drives the largest electric loco-
motive in the world.

An INVITATION

SPECIAL PRESENTATION of The Outstanding Chevrolet of Chevrolet History

EVERYONE is familiar with Chevrolet's brilliant
record of past success, but the new Chevrolet
represents the most spectacular of all its achievements
... introducing a new conception of motor car value.

It is with pleasure, therefore, that we announce our
ability to secure the services of a Chevrolet factory
expert to conduct for us a special presentation of the
Outstanding Chevrolet of Chevrolet History.

This presentation comprises a complete, thorough ex-
planation of this sensational new car—and, in addi-
tion, a special series of illuminated slides and a motion
picture of unusual interest entitled "With Chevrolet
Across Canada."

Everyone is interested in the latest automobile de-
velopments! Everyone is cordially invited to attend!
Make a note of the time and place.

A SIX IN THE PRICE RANGE OF THE FOUR

On Monday, Feb. 25th, at 8.15 p.m.
In S. & S. Hall Standard
Peterson & Seested, Standard, Alta.

Here and There

(233)

Large cargoes of wheat are be-
ing shipped to Japan and the
Orient through Vancouver these
days. It seems like sending coals
to Newcastle to send flour to
"The Flowery Kingdom."

Some foundation for the old
nickname "woolly" west is found
in the report that Alberta's wool
output for 1928 amounted to 3,053,-
181 pounds. Altogether the Domini-
on produced over eighteen and a
half million pounds.

Steel is replacing wood to freight
service on the Canadian Pacific
Railway as 7,500 box cars now on
order for the company will be of
steel construction. They will have
a capacity of about 2,000 bushels
of grain and a load of 120,000
pounds.

Fur-farming is developing many
branches, one of the most recent
being the organization in Manito-
ba of the Manitoba Muskrat Breed-
ers Association. The body plans
to study muskrat breeding con-
ditions and to investigate all phases
of the industry.

In a recent speech at Kitchener,
Ontario, E. W. Beatty, chairman
and president of the Canadian
Pacific pointed out that the aver-
age freight rate per ton per mile
in Canada is about 5 1/2 per cent
lower than in the U.S., and that
the average of Canadian grain
rates is 40 per cent lower.

The Trans-Canada will cross the
continent in an hour and a half
less time eastbound, and an hour
less westbound than it did last
year. This does not mean that
Canada has got any smaller, but
that the Canadian Pacific Railway
is running the famous flyer on
an improved schedule.

Penny postage, inaugurated at
Christmas, is working well and
bringing about a notable increase
in letter mails from Canada to the
British Isles, according to federal
postal officials. It is estimated
that the increase in the course
of a year would be such as to
offset the \$200,000 estimated re-
duction in revenue by the penny
rate.

In Manitoba, there is one tractor
for every 4.6 farms; in Saskatche-
wan, one for every 4.7 farms; and
in Alberta, one for every 7.5
farms. If all the tractors were
hitched together, how long could
it take a garage mechanic to reach
the moon.

Town and District News

Picture Show after the hockey game Saturday night.

How many are going to Stettin Monday with our hockey team? It is believed that everybody gets their share.

J. Carstairs of the R.C.M.P. has been transferred to Lethbridge where he will continue his good work.

Born to Mr. and Mrs. Emil Dupont a daughter on Valentine Day, Feb. 14th.

H. W. Clarke, of the Canadian Bank of Commerce, staff is spending his holidays at Coleman.

Everyone will now hear the 12 year-old child entertain next Friday night.

The Strathmore team is due to play Gleichen tonight at Strathmore to engage with them tomorrow.

Saturday night 7:30 Strathmore is to play the Gleichen owing to the fact there should be some fun—lets go.

Principal Badger has been suffering from tonsillitis and his room has been closed since Monday morning.

E. J. Anderson, B. Sec. Eyeglass Specialist, will be in Gleichen on Friday, March 1st, at the Queen's Hotel. Eyes Examined.

As Lewis has resigned the management of the Gleichen owing to the fact that the merchant price for milk was not unanimously elected to be successful.

John Duggan, 72 years, passed away at the Gleichen Evendale Home on Wednesday last, Feb. 13th. His wife, Mrs. Duggan, died at the same place on Saturday at Evendale cemetery.

While at hockey practice Monday night with Pat Beane in goal Cammie Brown came down the ice and shot the puck so hard that when Pat stopped it the puck broke in two pieces—because of "shots".

"THE UPLAND HIDE" ON SAT. Ken Maynard and His Wonder Horse

This picture is an original story by Marion Jackson, and features Taran, the wonder horse, of Ken's who has been seen with Ken in all of his previous westerns. Taran is possibly one of the best known equine players on the screen and is actually receiving fan mail of his own, to such a degree that Charles E. Rogers, the producer of the Ken Maynard features for First National, and Ken, decided that the public would be given a picture in which Taran had more than his usual share of film footage.

The story is typically modern in scope and deals with two rival horse ranches in the west. One of these ranches breeds and raises the well known cow-pony of the west called "Palomino" and the other of an Easterner to introduce a higher type of horse of Arabian strain to supplant the cow-pony.

Incidentally Taran happens to be "Palomino" and according to Ken, this is a breed brought to this country by the Spaniards during the conquest of Mexico. However, the decision of the question as to which horse are best and the ultimate answer is left to the audience. The contract is decided upon by a cross-country horse race in which more than a dozen horses are entered than any previous Maynard feature.

CORRESPONDENCE

(The Call must not be held responsible for the opinions of correspondents.)

Nanaka, Alta. Feb. 11, 1929

Editor Gleichen Call, Dear Sir—

I read with considerable interest and amusement Mr. Thompson's comments on the Gleichen school plan. Amusement because I sat on the school board with him for several years and as he had three or four children going to school at that time. I was not so sure of his school plan regardless of cost. Now when he lives in Calgary and his children go to school there and his proposed plan does not take in city schools he seems to have had a change of heart. I have had a change of heart in January preparing for, during, and clearing up after the U.F.A. convention. We had Mr. Baker will be two half days also several times during the convention including the time his plan was under fire and after referring to all the questions put to him from every angle and also the discussion during the convention have come to the conclusion that it would be poor business for me or anyone who has been asked to represent this plan. Practically the only opposition is from those who have no right to educate in rural schools or else do not understand the plan and its advantages. Your correspondent says it will cost five or six dollars more for school purposes in the municipality. I am not in position to challenge this statement, except to say that he has taken the statement in every instance he can. And then says further that it will not benefit a single school district in Blackfoot Municipality or any surrounding municipality. Let me quote a few instances that will benefit all schools. "It will make better provision for high school education." "It will make an improvement in the quality of rural teaching." "It will be through supervision of all teachers work raise the standard of teaching and eliminate the staff. These are only a few and will apply to all schools. In 1927 when we had to pay eighteen per cent half rate here were not a few who thought that the half rate should be qualified over the province and made compulsory and I agree with the general idea. Why should one district pay eleven per cent and another only four for the same protection. Why also should one school district pay only three mills and another eight for the same service. It is only a matter of cooperation. The same spirit that put the Wheat Pool over top this evil.

The school system as it now stands is the same as it was in rural areas when we were all children, very little change. The Baker plan is something better or an attempt to get out of the present situation. I would not stand in the way of progress, nor spend all the money on rural schools for all children. It is either rights or half insurance.

Yours sincerely, HARVEY HANSON

Portion of the East 1/4-15-22-23 West of the 1st division, Alberta containing approximately 250 acres.

Tenders marked 2800 addressed to L. F. CLARY, Q.P., K.C., Master in Chancery, Court House, Calgary, will be received up to 11 o'clock on Saturday, 16th day of February, 1929, for purchase of above property.

LOCATION: 10 miles from Gleichen, Alberta, 4 miles from Blackfoot, 1 1/2 miles from school, 4 miles from dealer, 278 acres under cultivation, 17 acres pasture.

And now our famed Home-Here hockey team is invited to show their skill next Monday away such as Stettin—here's betting on the team. Tom Johnston is just looking to see his old friend Dr. Wright and he is responsible for making the match. Furthermore, it is stated Dr. Wright was cured of his lameness at Stettin with the first sight of hockey stick, all same as a baseball hit off him in Gleichen.

It is no good hiding your light under a bushel if you want to sell things or electric shades and globes.

A man whose heart is in his job naturally hesitates to put his foot down.

The United Church Sunday school are invited very fortunate in being able to secure Miss Kathleen Greene, of Calgary, to give a "Polynesian" social in the Church on Friday, Feb. 22nd. Kathleen is a young lady 12 years, and is already an expert in the subject. She has just returned from an extended tour of the Pacific Islands. Her impersonation of Polynesian and her "dual name" will delight any audience. She will be assisted by local talent.

The next meeting of the Gleichen U.F.A. will be held in the Meadowbrook Community Hall on Thursday, February 21st, when Mr. Ralph Unbrue will lead a discussion on hog-raising and marketing.
